Full-Stack Software Engineer — React, Node.js, Express.js, MongoDB — 350+ LeetCode problems solved

EDUCATION

Jaypee Institute of Information Technology, Noida

2026 – Present

Master of Computer Applications (MCA)

Galgotias University

2023 – 2026

Bachelor of Computer Applications in Artificial Intelligence & Machine Learning — CGPA: 9.57/10

EXPERIENCE

Web Development Intern

2025

Pinnacle Labs

- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript during a one-month web development internship.
- Built an interactive Calculator application implementing dynamic user interactions and JavaScript-based calculations.
- Designed and developed a responsive personal Portfolio Website showcasing projects, skills, and professional information.
- Improved frontend usability by implementing responsive layouts and interactive UI components across different screen sizes.

PROJECTS

Lendra — Full-Stack Rental Platform | *React.js, Node.js, Express.js, MongoDB, JWT*

- Developed a full-stack rental platform that enables users to list, borrow, and manage rental products through a secure web application.
- Built RESTful APIs using Node.js and Express.js for user authentication, product management, and rental operations.
- Implemented JWT-based authentication with protected routes and authorization middleware for secure user access.
- Integrated MongoDB with Mongoose for persistent storage and structured management of users, products, and rental data.
- Developed the frontend using React.js and integrated backend APIs using Axios for seamless client-server communication.

Streamify — Video Streaming Platform | *React.js, JavaScript, HTML, CSS*

- Developed a responsive video streaming interface inspired by modern OTT platforms using React.js and JavaScript.
- Created reusable React components for navigation, content sections, movie/show cards, and responsive layouts.
- Implemented interactive UI features to provide a smooth browsing and streaming-platform experience.

Personal Portfolio Website | *React.js, JavaScript, HTML, CSS, Vite*

- Built a responsive personal portfolio website to showcase technical skills, projects, education, and professional experience.
- Developed reusable React components and responsive layouts using modern frontend development practices.
- Configured and developed the project using Vite for a fast and efficient development workflow.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python

Frontend: React.js, HTML5, CSS3, Bootstrap, Vite

Backend: Node.js, Express.js, RESTful APIs, JWT

Databases: MongoDB, Mongoose, SQL

Tools: Git, GitHub, VS Code, Thunder client

Concepts: Data Structures & Algorithms, OOP, DBMS, Authentication & Authorization, Responsive Web Design

ACHIEVEMENTS & CERTIFICATIONS

- Solved 350+ Data Structures and Algorithms problems on LeetCode, demonstrating strong problem-solving and algorithmic skills.
- Earned certification in C++ programming, demonstrating proficiency in programming fundamentals, object-oriented programming, and problem-solving.
- Earned certification in React.js, demonstrating knowledge of components, props, state, hooks, and modern frontend development.
- Completed Introduction to Networks certification, gaining foundational knowledge of networking concepts, protocols, network architecture, and communication.
